PROFESSIONAL EXPERIENCE

Agency for Integrated Care (AIC)

Assistant Manager, Marketing Communications (Web & Digital Platforms)

Oct 2024 – Present

- Manage and maintain AIC.sg website serving **82,000+ monthly users**, overseeing **content updates, structure changes, and ongoing optimisation** to ensure accuracy, consistency, and usability.
 - Act as the primary liaison between **internal stakeholders, IT teams, and external vendors**, translating business and communication needs into clear **functional and technical requirements**.
 - Support and coordinate the **website revamp and CMS migration from WordPress to Sitecore**, including content review, requirements validation, and UAT preparation.
 - Review and work through **Functional Requirements Documents (FRD)**, ensuring alignment with marketing, business, and system constraints.
 - Build hands-on proficiency in **Sitecore CMS**, supporting content management workflows, governance, and UAT activities during an enterprise CMS migration.
 - Support **UAT coordination and release readiness** with IT and vendors prior to production deployment.
-

Freelance Web Consultant / Web Project Manager

May 2023 – Oct 2024

- Delivered **end-to-end website and portal management** for multiple clients, covering scoping, CMS-based development, QA/UAT, launch, and ongoing optimisation.
 - Managed **client and vendor coordination**, ensuring timely delivery, functional quality, and alignment with business objectives.
 - Implemented **SEO and performance optimisation** initiatives to improve visibility, traffic, and engagement.
 - Designed and enhanced **Tableau dashboards** to support data-driven reporting and decision-making.
-

Council for Third Age (C3A)

Assistant Manager, Web Portal

Jun 2020 – May 2023

- Owned and managed a **Drupal-based public-sector website** serving **20,000+ monthly users**, overseeing content updates, enhancements, and production support.
- Led **microsite development for Virtual Roadshows**, attracting **30,000 users per event**, from requirements gathering through deployment.

- Managed **vendors and internal stakeholders**, handling change requests, issue resolution, and release planning.
 - Conducted **QA, UAT, and regression testing** to ensure on-time and high-quality releases.
 - Implemented **Google Analytics and Power BI dashboards** to track website performance, user behaviour, and partner metrics.
-

Deegix Pte Ltd

Web Operations & Support Manager

Mar 2019 – Feb 2020

- Promoted from Software Developer to Manager, overseeing **operations, maintenance, and SLA-based support** for **8 high-profile websites** including Singapore GP and The Arts House.
- Led **requirements elicitation, feasibility assessments, and solution proposals** to improve UX and retention.
- Managed **change and release management**, ensuring minimal disruption to live environments.
- Supervised and mentored a **team of 4**, optimising resources and delivery timelines.

Software Developer

May 2017 – Mar 2019

- Supported development, enhancement, and **QA testing** of CMS-driven websites.
 - Maintained the official **Singapore GP website**, supporting peak traffic during major events.
-

Sense Infosys Pte Ltd

Application Developer

Sept 2015 – May 2017

- Designed and delivered **Tableau dashboards** to enhance data visualisation and reporting for daily operational and management use.
 - Developed and enhanced a **Java-based web application** using JavaServer Pages (JSP) and JavaScript libraries, replacing manual processes and improving operational efficiency.
 - Supported ongoing enhancements, testing, and issue resolution for client-facing systems.
-
